Subject: EU chemicals regulation REACH

Dear Mrs Adam,

the European Chemicals Agency ECHA has published a list of substances of very high concern (SVHC). This regulation concerns not only chemicals, but also products released by these chemicals.

With this letter, we confirm the following:

Our products are **not** affected by REACH regulations as they will be classified as products under REACH and do not release chemical substances under normal or foreseeable conditions of use (see. Art. 7, para. 1 of the REACH regulation).

Therefore, no registration requirement exists.

In our own interest and to ensure product safety, we are in contact with our suppliers, who will conduct (pre-)registration of chemicals requiring registration, following which their notification obligation to us will be fulfilled.

Yours sincerely,

on behalf of I. Müllers
Quality Management
